Introduction

The following CTIA Certification Brand Guidelines (“Guidelines”) provide information about the use of the CTIA Certification family of logos, brands, trademarks, and service marks (collectively “Marks”) that are available for use by those who have been authorized by CTIA Certification to use the Marks, hereinafter “CTIA Certification Licensee.” These Guidelines describe how and where the Marks may be used. All use of the Marks must comply with these Guidelines; all other use is strictly prohibited. CTIA Certification reserves the right to review any use of its Marks and may object to any use that it deems a violation of these Guidelines. You agree to promptly cease using the Mark, upon notice from CTIA Certification. CTIA Certification shall be entitled to modify these Guidelines at its own discretion, which will be effective immediately upon posting to www.ctiacertification.org, unless otherwise indicated. You are responsible for regularly reviewing these Guidelines and complying with the most recent version. For avoidance of doubt, any use of the Marks must be in compliance with the most current version of these Guidelines.

Qualifications

To qualify to use the Marks, you must execute an Agreement with CTIA Certification that grants you a license to use the Marks (“Agreement”), and comply with all the requirements of the Agreement. Upon your successful completion of the Agreement requirements, CTIA Certification will provide the master artwork containing the Marks that you are permitted to use. Your use of the Marks must conform to these Guidelines.

Proper Use

As a CTIA Certification Licensee, you may use the Marks for the sole purpose of indicating your association with a CTIA Certification program. Your use of the Marks indicates your continued compliance with the terms of the Agreement. You may use the Marks on your website(s) and in advertising promotional materials as a standalone impression. Additionally, you agree to do the following:

- Only use trademarks as adjectives and always spell and capitalize the Marks exactly as provided by CTIA Certification.
- Only make textual use of the Marks, and ensure that trademarks are used properly with the proper notation (® for registered trademarks and ™ for non-registered trademarks). Ensure that a Mark is distinguished from other words in the text and always use the ® or ™ symbol (as appropriate) with the first and the most prominent appearance of a Mark in a particular piece of printed or electronic material. For the trademark and registered trademark symbols, the superscript mode is preferred, but if it is not available, use parentheses: (TM) or (R).
- Only use and display approved master artwork of the Marks provided for your use by CTIA Certification.
- Ensure your name and brand are always displayed in a manner that is larger and more prominently displayed than the Marks.
- Include the following credit line in all advertisements, promotional materials, and websites bearing any Mark: “This mark is a registered trademark of CTIA Certification and/or its affiliates in the United States and other countries.” The credit line may appear anywhere on the collateral, but typically is displayed on the page where the Mark is displayed, or at the bottom of a webpage.
- Any other use is subject to CTIA Certification’s prior written authorization.

Improper Use

In addition to the restrictions and obligations set forth in the Agreement regarding your use of the Marks, you may also not do the following:

- Use the Marks as a noun pluralized, make possessive, abbreviate, alter, or join any of the Marks to other words, symbols, or numbers, either as one word or with a hyphen;
- Recreate, modify, augment, animate, distort, or change any elements, including but not limited to the color, font, proportions, gradient, lockup, typography, opacity, or apply any other treatment (rotate, outline, drop shadow) to any of the Marks;
- Combine any of the Marks with another trademark;
- Create any derivative work, or use, or register any trademark that is confusingly similar to any of the Marks;
- Omit portions or use a partial version of any of the Marks;
- Use any of the Marks, or any portion thereof, in the name of your business, product, service, app, email address, domain name, website, social media account, or other offering;
- Use any of the Marks in a manner that suggests, explicitly or implicitly, that CTIA Certification sponsors or endorses your company or any of your products or services; or that you are a division, affiliate, franchise, or agent of CTIA Certification;
- Use any of the Marks in any manner that is likely to, in CTIA Certification's sole discretion, reduce, diminish or damage the goodwill, value, or reputation associated with the Marks or with CTIA Certification;
- Use any of the Marks in any manner that would violate the rights of any third-party; that would result in any third-party claim; or in any governmental investigation, claim, or proceeding alleging unlawful or improper use of the Marks; and
- Use any of the Marks in connection with any objectionable, illegal, offensive, unethical, unreliable, or fraudulent activities or materials.

The improper use of any Mark may automatically terminate your license to use the Marks.

Company Name

“CTIA Certification” is not only a trademark and service mark identifying goods and services, but is also a company name referring to CTIA Certification LLC. Company names are nouns, and therefore, should not be followed by a generic descriptor and may be used in the possessive form. When used as a company name, “CTIA Certification” should not be followed by a trademark symbol. Within documents, the first reference a company name should be the entire legal company name: CTIA Certification LLC, and “CTIA Certification” can be used for subsequent references.

Questions

If you have any questions about these Guidelines, please contact programs@ctiacertification.org.

CTIA Certification Primary Logo Guidelines

The logo should always be legible and without obstructions. A minimum area surrounding the logo must be kept clear of any other typography as well as graphic elements such as illustrations, thematic images and patterns, and the trim edge of a printed piece.

- The CTIA Certification logo should always be used as black or white.
- A minimum size has been established for the CTIA Certification logo to ensure legibility for print and web.
- Minimum clear space on all sides of logo and type mark should be equal to the letter “C” found in the CTIA Certification logo.

The CTIA Certification logo is a key element of our identity. Only master artwork provided by CTIA Certification may be used, and may not be modified.

Roboto Regular

About

Roboto has a dual nature. It has a mechanical skeleton and the forms are largely geometric. At the same time, the font features friendly and open curves. While some grotesks distort their letterforms to force a rigid rhythm, Roboto doesn't compromise, allowing letters to be settled into their natural width. This makes for a more natural reading rhythm more commonly found in humanist and serif types.

This is the regular family, which can be used alongside the Roboto Condensed family and the Roboto Slab family.

Secondary typeface

Arial

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890!@#\$%^&*()

Arial Regular

About

The secondary typeface should be used as a default web-safe alternative. It may also be used in PowerPoint and emails.

CTIA Certification Authorized Test Lab Logo

Only test labs authorized by CTIA Certification (“ATLs”) are licensed to use the CTIA Certification ATL logo, as agreed to in the ATL License and Service Agreement. ATLs may use the logo in association with their products and services, as well as in association with their company to promote their authorization as a ATL. CTIA Certification will provide the ATL with the master artwork containing the logo that the ATL is permitted to use, with its specific lab code, to represent that it is an ATL. Use of the ATL logo must conform to these Guidelines.

Authorized
Test Lab
Lab Code: 00000000-00

PTCRBTM

Industry Certified, Network Ready.

PTCRB Primary Logo Guidelines

The PTCRB logo should always be legible and without obstructions. A minimum area surrounding the logo must be kept clear of any other typography as well as graphic elements such as illustrations, other logos, thematic images, patterns, and the trim edge of a printed piece.

The PTCRB Industry Certified, Network Ready logo is a key element of our identity. Only master artwork provided by CTIA Certification may be used, and may not be modified.

Minimum clear space on all sides of logo and type mark should be equal to the height of the small cell line found in the PTCRB logo.

Anything smaller, tagline becomes illegible.
Revert to logo without tagline.

PTCRB Secondary Logo Guidelines

The PTCRB logo should always be legible and without obstructions. A minimum area surrounding the logo must be kept clear of any other typography as well as graphic elements such as illustrations, other logos, thematic images, patterns, and the trim edge of a printed piece.

The PTCRB logo is a key element of our identity. Only master artwork provided by CTIA Certification may be used, and may not be modified.

Minimum clear space on all sides of logo and type mark should be equal to the height of the small cell line found in the PTCRB logo.

MINIMUM SIZE
Height: 29 px / .40 in

PTCRB Primary Test Lab Logo Guidelines

Only test labs authorized by CTIA Certification (ATLs) are licensed to use the PTCRB Primary Test Lab logo, as agreed to in the ATL License and Service Agreement. ATLs may use the logo in association with their products and services, as well as in association with their company to promote their authorization as a PTCRB Associate Test Lab. CTIA Certification will provide the ATL with the master artwork containing the logo, with your specific lab code, to represent that you are a PTCRB Primary Test Lab. Usage must follow these guidelines.

The PTCRB Primary Test Lab logo is a key element of our identity. Only master artwork provided by CTIA Certification may be used, and may not be modified.

Minimum clear space on all sides of logo and type mark should be equal to the height of the small cell line found in the PTCRB Associate Test Lab logo

Minimum size for digital applications
Height: 42.5 px / 0.58 in

PTCRB Associate Test Lab Logo Guidelines

IoT Network Certified Primary Logo Guidelines

The IoT Network Certified logo is a critical element of our identity. Only master artwork provided by CTIA Certification may be used, and may not be modified.

The logo size should not appear under 40 pixels for digital and .3472 inches for printing.

Do not reproduce the logo in a manner that makes it illegible.

Minimum size for digital applications

Height: 40 px / 0.5556 in

Minimum size for print applications

Height: 0.3472 in / 8.819 mm

IoT Network Certified Primary Logo Guidelines

The logo should always be legible and without obstructions. A minimum area surrounding the logo must be kept clear of any other typography, graphic elements such as illustrations, thematic images, patterns, and the trim edge of a print piece.

Required Clear Space

Minimum clear space on all sides of logo and type mark should be equal to the letter “I” found in the “IoT” of the logo.

More than the minimum clear space is recommended especially on larger logo applications.

Clear space of at least one “I” in the “IoT” text of the logo.

Minimum size logo for digital with clear space applied

IoT Network Certified Primary Logo Guidelines

Only use the provided logos. Do not recreate the logo or change the colors under any circumstance.

Use the full color logo against a white background.

Use the black and white logo when it is not possible to print or display in color or when the logo is set in a smaller size.

Use the reverse logo against dark colors or a black background.

Unacceptable Logo Usage

The only correct uses of the logo are as shown on the previous pages.

A few typical incorrect examples are shown below.

DO NOT change opacity

DO NOT rotate

DO NOT distort the logo

DO NOT add a drop shadow

DO NOT
crop logo in any way

DO NOT put logo on colors that
make it hard to see

DO NOT put logo on
complicated patterns

DO NOT alter the color palette

Written Form

When referring to **IoT Network Certified™** in written form, use the trademark ™ symbol with the first and the most prominent appearance in a particular piece of printed or electronic material. WISE Logo Guidelines

The WISE logo is a key element of our identity. Only master artwork provided by CTIA Certification may be used, and may not be modified.

The font for the logo is Tondo Regular.

This font appears in the logo only. It should not be used for headlines, subheads, or body copy.

The logo should not appear in a size under 1.25 inches or be reproduced in a manner where "Wireless Industry Service Excellence" would be illegible.

No smaller than 1.25"

WISE Logo Guidelines

The WISE logo can only be used in the approved colors to ensure that it properly appears in print documents and on-screen presentations.

Only use files as provided. Do not recreate the logo or change the colors under any circumstance.

Only use the full color logo against a white background.

Only use the black and white logo when it is not possible to print or display in color.

Use the reverse logo against color and contrasting images.

WISE Logo Guidelines

The logo should always be legible and without obstructions. A minimum area surrounding the logo must be kept clear of any other typography as well as graphic elements such as illustrations, thematic images and patterns, and the trim edge of a printed piece.

Minimum clear space on all sides of logo and type mark should be equal to the letter “e” found in the WISE logo.

More than the minimum clear space is encouraged.

Unacceptable Logo Usage

The only correct uses of the logo and tagline are as shown on the previous pages. It should never be rearranged.

A few typical incorrect examples are shown below.

DO NOT change the colors.

DO NOT change proportions.

DO NOT change opacity.

DO NOT add a drop shadow

DO NOT rotate.

DO NOT stretch.

DO NOT not outline.

DO NOT rearrange.

WISE Logo Guidelines

Logo Hierarchy

Ensure your name and brand shall always be displayed in a manner that is larger and more prominently displayed than the WISE logo.

Written Form

When referring to WISE in written form, ensure it is always capitalized and use [™] symbol with the first and the most prominent appearance in a particular piece of printed or electronic material. For the trademark symbols, the superscript mode is preferred, but if it is not available, use parentheses: (TM).

COMPANY LOGO

COMPANY LOGO

Display your company name more prominently than the WISE logo.

WISE Logo Guidelines

Website and Materials

The WISE logo may be used on your website(s) and in advertising promotional materials as a standalone impression.

Email Signature Block

The WISE logo may be used in your email signature block provided your company's name, your name and contact information also appear. The WISE logo shall not be larger in size or more prominent than your company's name or logo, and placed at the bottom of your signature block after your personal information.

WISE logo may be used on your website and promotional materials.

Display your company name more prominently than the WISE logo on your email signature block.
